

'CLEANLINE' MULTI-STAGE ULTRASONIC CLEANING SYSTEMS

STANDARD FEATURES:

- Stainless Steel Construction.
- Sizes from 60 to 240 litres.
- 2, 3, 4 and 5 Stage Machines.
- Washing, Rinsing & Drying Stages as Required.
- Hot Air or Vacuum Drying.
- High-efficiency, Piezo-electric, Ceramic Transducers.
- Digital Temperature Control.
- Digital Process Timers.
- Manual & Automated Operation.
- 2 Years' Warranty.

'Cleanline' multi-stage, ultrasonic cleaning systems offer the ultimate in aqueous, precision cleaning technology. High-frequency sound waves provide a deep-cleaning action, even on complex component geometries, without stress or damage to the component, making the process ideal for those critical cleaning applications requiring consistent, high-quality cleaning.

'Cleanline' machines are available in a range of standard sizes and 2, 3, 4 or 5 process stages to incorporate washing, rinsing and drying as required. Alternatively, we can work with you to specify a system exactly tailored to your requirements.

'Cleanline' multi-stage machines can be supplied in user-friendly, manual format or with fully-automated, single or multi-basket handling capability, including in-stage, basket agitation or rotation.

'Cleanline' – the cost-effective answer to your precision cleaning problems.

EQUIPMENT SPECIFICATION

The table below provides details of the five, standard, compartment sizes available in the range. Machines can be supplied with 2 to 5 process stages incorporating combinations of washing, rinsing and drying as required. Alternatively, bespoke systems can be specified to suit specific size or process requirements not covered by our standard range.

Not sure of your process requirements? Don't worry, we'll carry out cleaning trials, free of charge, on samples of your components to determine the best process for your needs.

	MODEL				
	60	80	120	160	240
Compartment Length	550 mm	650 mm	650 mm	900 mm	900 mm
Compartment Width	300 mm	330 mm	500 mm	500 mm	750 mm
Compartment Depth	400 mm	400 mm	400 mm	400 mm	400 mm
Basket Length	450 mm	560 mm	560 mm	850 mm	800 mm
Basket Width	250 mm	280 mm	450 mm	450 mm	680 mm
Basket Depth	350 mm	350 mm	350 mm	350 mm	350 mm
Liquid Volume	60 ltrs.	80 ltrs.	120 ltrs.	160 ltrs.	240 ltrs.
Ultrasonic Power	750W	1000W	1500W	1500W	2000W
